Laser Sheen® continuous finishing spray has a unique non-oily formula which was developed to put the finest gloss possible on horses' coats. Laser

Sheen® continuous finishing spray detangles manes and tails quickly - and keeps them tangle free! Produces a lustrous, healthy coat that shines like a winner! Silicone formula repels dust and dirt, and prevents stains from grass, manure, and sweat.

After one treatment of Laser Sheen® continuous finishing spray your horse stays clean and shiny for up to a full week! Cuts grooming time in half.

Directions for Use:

Apply Laser Sheen® continuous finishing spray to the coat, mane, and tail. Spray fine mist over entire horse until coat, mane, and tail are damp. Wipe in the direction of hair. Allow to dry before additional brushing or towel. Twist to lock.
