

Effol®

Hoof Ointment

Hoof Ointment

Effol Hoof Ointment strengthens the hooves and encourages healthy hoof growth. The hooves are strengthened and supported in their natural development. Effol Hoof Ointment makes the hooves more elastic thus protecting them against cracks even under extreme conditions.

Apply **Effol Hoof Ointment** to the coronary band and to the hoof wall. Brief massage on the coronary band will increase the long-term effect. For simple and clean application we recommend Effol Brush Fix.

Empty container completely for recycling. For external use

only. Not for human use. For use in horses only. Not for use in horses intended for human consumption. Keep away from eyes and mucous membranes. Keep out of reach of children.
