

Leather Laundry Solution™ is a patented product that allows you to machine wash leather. It cleans and helps to restore the soft feel of suede, smooth leather, fabrics and natural sheepskin items. It is ideal for use on items such as full seat breeches, full and half chaps, sheepskin saddle pads, gloves and leather clothing. High efficiency formula.

For Best Results: Separate colors as some dyes tend to run. Add Leather Laundry Solution™ to water and allow to mix before putting items in the wash. Use with Leather Laundry Rinse & Dressing™.

Directions:

SHAKE WELL BEFORE USING

Lightly soiled items, delicates, smooth leather, suede: Use 2-4 ounces in COLD water, set washing machine to "small load" setting.

Heavily soiled items, heavy fabrics, sheepskin/fleece items: Use 4 ounces, set washing machine to WARM wash, then set on COLD for the rinse cycle.

Care Tip: For optimum conditioning and soft texture use Leather Laundry Rinse & Dressing™ in the rinse cycle. Intermittently pat, gently stretch, and reshape item as it dries to help prevent stiffening.

Important: Air dry items away from heat or direct sunlight. NEVER dry leather or sheepskin fleece in the dryer. Not for use on high-fashion leather garments. Always check garment care instructions. Note: Removing abrasive dirt particles while adding the rich conditioners will restore comfort and soft texture to leather items, but worn or damaged areas will not regain lost color or finish.

Caution: KEEP OUT OF REACH OF CHILDREN. Do not ingest. In case of contact with eyes, flush with plenty of water. Call physician if irritation persists. Wash hands after use. Dispose of container properly.

Ingredients: Contains biodegradable fabric and leather softening agents, and fragrance.
