## RETIRE THE WHEELBARROW

Common sense tells us that it is always easier to pull that to push. Especially a tub full of horse manure with one wobbly wheel moving over uneven ground.

### “THE SLED”

The Sled makes manure removal a breeze for anyone. Slide it through the barn, even under fences then just tilt to dump. With The Sled you can pull bales of hay across the farm, all your muck tools, your feed supplies and endless convenient uses besides manure removal.

### FEATURES:

- One piece construction
- Long ½” pull rope
- Designed with handle holes on 2 sides
- Strong polyethylene holds large amount of heavy manure
- Two sides are low for easy dumping
- Easy to muck pens, - No heavy tubs
- Just slide under the panel and slide back
- Pull your muck tools instead of carrying them
- Easy to clean, easy to load in trailers
- Very portable, takes little room in your truck
- Just store away from direct sun in a shaded or cool place
