

- 1 **Head Circumference is CRITICAL!** measurement to help ensure correct OptiVizor sizing.
- 2 Make sure to go over the **MID-BASE of Ears**, with the Ears laid flat against the head snug. (see pic)
- 3 **Accurately Measure Twice, Order Once!**
- 4 Best to use soft tape measure.  If you don't have one, use a string. Then put the string on a ruler to get the circumference measurement.

NOTE: Each size is color-coded as noted below. Requesting a size be in a different color is not available.

Optivizor Short Snout Sizing Charts

Steps: 1) Head Measurement 2) Then Canine Weight

1) HEAD MEASUREMENT

(Reference Inches or Centimeters)

		25-27	28-30	31-34	35-38	39-43	44-48	49-55	56-60	60+	Centimeters
		10-11	11-12	12-13	13-15	15-17	17-19	19-22	22-24	24+	Inches
OPTIVIZOR™ SIZE	Tiny										
	Mini Mini										
	Mini										
	Toy										
	Small										
	Small Medium										
	Medium										
	Large										
	X Large										

Measure snug, over the ears then around the head.

2) CANINE WEIGHT

(Reference Weight in Kilograms and Pounds)

		1	2	3	2-6	5-12	10-25	23-35	33-45	46+	Kilograms
		2	3	4	4-13	11-26	22-55	50-77	72-99	101+	Pounds
OPTIVIZOR™ SIZE	Tiny										
	Mini Mini										
	Mini										
	Toy										
	Small										
	Small Medium										
	Medium										
	Large										
	X Large
