Attention – please note:
When buying new **TONICS** chaps or tall boots, they should fit very tight. Leather is a natural material, which can stretch and widen slightly when in contact with body heat or during heavy use. **TONICS** therefore recommends to purchase new chaps or tall boots not too short or too wide. The fitting is perfect if the chaps or boots fit tight like “a second skin”, this makes them a perfect companion in the everyday life of a rider.
