PURINA ANIMAL NUTRITION CENTER

Since 1926, Purina Animal Nutrition Center in Gray Summit, MO has been defining and delivering the future of equine nutrition with a unique philosophy: Combine the finest ingredients with exhaustive research and you'll create unsurpassed nutrition for every type of horse.

For horses who are not receiving a balanced concentrate feed, the highly palatable Purina® Free Balance® 12:12 Vitamin & Mineral Supplement provides the added vitamins and minerals needed to balance a pasture or hay-only diet. Purina® Free Balance® 12:12 is also available in a 40 pound block.

NET WT. 25 lb (11.33 kg)

NET WT. 40 lb (18.14 kg)

Features & Benefits:

VITAMIN & MINERAL FORTIFICATION

To support strong bones, immune system and reproductive function

WEATHER RESISTANT

VITAMIN STABILITY FOR BIOAVAILABILITY

ADDED ANTIOXIDANTS INCLUDING VITAMIN E

Added amino acids help promote muscle growth & healthy hair coat, skin and hooves

NATURAL FLAVORING THAT HORSES LOVE

Feeding Directions:

40 lb Block: Feed free choice in covered feeders to provide approximately 2 ounces per head per day throughout the year.

Measured Feeding (25 lb bag): Use the scoop provided to top dress 2 oz once daily per horse onto regular grain or concentrate.

Free Choice (25 lb bag): Set Purina® Free Balance® 12:12 Vitamin & Mineral Supplement in a large tub or mineral feeder under shelter or in a run-in shed. Research shows horses consume on average 2 oz per head per day. Horses will eat more than the average some days and less on other days. Some horses will over-consume this supplement when first given free choice. If excessive consumption (more than 4 oz/day) occurs for longer than 2 days, remove access for 2 days, then return to free choice. If over-consumption still occurs, follow directions for measured feeding.

When fed as recommended, Purina® Free Balance® 12:12 Vitamin & Mineral Supplement will provide no more than 0.3 ppm selenium to the total diet.
