

EquiPulmin® herbal formula opens the airways. Specially formulated for horses with lung and breathing disorders, this product is unique; it's made from a treasured formula that is over 100 years old.

EquiPulmin® goes to work immediately, keeping your horses respiratory system in balance.

EquiPulmin® contains a synergistic blend of premium grade herbs valued for their high level of bioactivity and gentleness. EquiPulmin can be used daily and administered right to race time.

EquiPulmin® will not test.

A healthier horse is a happier horse. A happier horse is more likely to work at his/her most optimum potential.
