Maximum UV Protection for
Coats, Manes & Tails from
Sun Bleaching and Burning.

Like a Raincoat for the Sun!

32 FL. OZ. (936 mL)

SUNFLOWER SUNCOAT™

Spray

Gentle & Effective

SUNFLOWER EXTRACTS | CONDITIONERS | UV-A & UV-B PROTECTION

"Like a Raincoat for the Sun", Sunflower Suncoat™ helps control, protect and repair hair from sun damaging UV-A and UV-B rays. *Scientifically documented evidence proves Sunflower Seed Extract, a free radical scavenger, provides superior effectiveness against sun damage and physical degradation from UV-A radiation. An additional select sun blocker adds protection from UV-B radiation while a quality blend of conditioners make hair more manageable, easier to detangle and control.*

- Maintains the natural, true color of coats, manes & tails.
- Repairs damage from the sun's ultra-violet spectrum.
- Reduces brushing and combing time.

Directions: Best when applied to freshly shampooed or groomed horse. Liberally spray onto horse, then comb or brush through coats, manes and tails. Wipe onto face, around eyes and other sensitive areas with hands, a soft brush or a non-absorbent cloth. Cover the entire horse completely for maximum protection. When spraying protect horse's eyes and mucous membranes. Sunflower Suncoat™ should be reapplied if horse is exposed to prolonged periods of rain, worked into a heavy sweat or lather, and after shampooing.

Ingredients: Aqua (Water), Propylene Glycol, Helianthus Annuus (Sunflower) Seed Extract, Benzophenone-4 (UVB and short-wave UVA), Phenylbenzimidazole Sulfonic Acid, Phenoxyethanol, Polysorbate 20, Sodium Hydroxide, Citric Acid Fragrance.

Keep out of reach of children. Avoid eye contact. If product gets in eyes, rinse them thoroughly with water. Do not spray in eyes or mucous membranes. Not intended for use on humans.
