# Nano-E<sup>®</sup>

Natural-source Vitamin E antioxidant

## Nano-E<sup>®</sup>

**A supplemental source of natural vitamin E  
for all classes of horses**

Nano-E provides highly bioavailable natural vitamin E to horses through a unique delivery system. Natural vitamin E is far superior to synthetic forms of the nutrient Nano-E features enhanced bioavailability and rapid absorption due to the special nanodispersion system that enables it to be water dispersible.

**GUARANTEED ANALYSIS:**

Vitamin E (min) ..... 250 IU/mL

**DIRECTIONS FOR USE:**

For supplementation of vitamin E in horses who have need of additional antioxidant protection. **Daily use:** give 4-8 mL (1,000-2,000 IU) by mouth or top-dress on feed. **Pre-competition:** give 12-20 mL (3,000-5,000 IU) 6-12 hours prior to competition or stressful event.

**INGREDIENTS:**

Water, vitamin E (d-alpha tocopherol), lecithin, polysorbate 80, citric acid, potassium sorbate (a preservative).

**STORAGE:**

Reseal cap between uses.  
Store at temperatures between  
50-75°F (10-24°C).

**Net Contents: 450 mL (15.2 oz)**
