

Indications: Aids in the healing of rain rot, leg fungus, heel scratches, sweet itch, leg scratches, saddle sores, scrapes, abrasions, coronary band fungus and other skin dermatitis and irritations. Natural essential oils aid in the preventative values of this body wash. Use as a maintenance for prevention of breakouts before show time or other events.

Directions

Note: Avoid picking bumps and scabs. Do not scrub affected area. It slows the healing process.

For direct application of affected areas, just place a squirt or so on a wet sponge. Apply to affected area, leave on 3 minutes and then rinse. Pat gently and you may apply Hay Where's That Blue Stuff antimicrobial, antifungal lotion for faster results.

For a bucket bath, squeeze just a few squirts and add bath water. Bathe as usual and rinse. To promote faster healing apply Hay Where's That Blue Stuff lotion until symptoms dissipate.

Caution: Avoid contact with eyes and mucous membranes. Keep out of reach of children.
