

Product Ingredients and Use Instructions

Leather Cleaner

- **Ingredients:** Contains a special blend of natural, food-grade leather cleansers and protecting and nourishing therapeutic grade essential oils to ensure gentle, effective care. Specially formulated to match the pH of leather. Helps to prevent mold and mildew.
- **Instructions:** Shake well. Spray a soft, clean cloth or sponge until damp, and then wipe on leather to clean away dirt and grime in one step. No rinsing or wiping off needed. Not for use on suede or unfinished leather.

Leather Conditioner

- **Ingredients:** Contains a special blend of food-grade natural oils and beeswax, as well as protecting and nourishing therapeutic grade essential oils to ensure gentle, effective care. Provides a natural barrier to help protect against water damage, mold, and mildew.
- **Instructions:** Apply a light coating to clean, dry leather using a soft, clean, dry cloth or sponge. May darken the leather slightly. Test in an inconspicuous area before using. Not for use on suede or unfinished leather.
