

Muscle Tie-up Care

DMG-It

Directions:

For maintenance, feed 1 scoop daily or ½ scoop twice daily as necessary.

For performance, feed 1 scoop twice daily starting 3 days before and ending 2 days following an event.

The enclosed 50cc measure holds approximately 1.2oz.

Product Description:

Dimethylglycine (DMG) is known for its ability to improve athletic endurance by preventing lactic acid accumulation and maximizing training energy.

Used properly, DMG-It helps to normalize blood glucose levels and improve the functioning of many important organs.

Ingredients:

Dextrose, N,N-Dimethylglycine, natural flavor
