

Metabolic

FEATURES

- Promotes proper glucose metabolism
- Supports immune system function
- Helps promote normal circulation
- Helps manage normal stress
- Supports normal metabolic rate
- Supports glucose uptake by the cell

dac® METABOLIC supports glucose metabolism by helping maintain blood glucose within normal range.

INACTIVE INGREDIENTS

Calcium carbonate, natural flavoring, partially hydrogenated vegetable fat, vegetable oil, whey powder.

AVAILABLE SIZES:

- 5# Bag
- 20# Bag
- 40# Bag

ACTIVE INGREDIENTS

(Per 2 oz.)

Tri-Magnesium Citrate	7,995 mg
Magnesium Oxide	6,690 mg
Chromium Propionate.	998 mg

DIRECTIONS FOR USE

Administer **dac® METABOLIC** at the following rates:

Maintenance Administration:	2 oz. per horse per day.
------------------------------------	--------------------------

Administration based on 1000 lb. body weight.

CAUTIONS: If animal's condition worsens or does not improve, stop product administration and consult your veterinarian. Safe use in pregnant animals or animals intended for breeding has not been proven. An examination from a veterinarian is recommended prior to using this product.

WARNINGS: Not for human consumption. Keep out of the reach of children and animals. In case of accidental overdose, contact a health professional immediately. This product should not be given to animals intended for human consumption.

FOR USE IN HORSES ONLY

SPECIAL INGREDIENTS

KemTRACE® Chromium - is a highly bioavailable, organic source of chromium propionate that helps stabilize insulin receptors in animals, improving glucose use and reducing the negative impacts of stress. Every cell in the horse relies on glucose to fuel its function and growth. Maximizing each cell's utilization of glucose results in improved overall health and performance.

Bioavailable Magnesium - supports blood flow and normal transport of glucose on a cellular level.
