

Our products always have been, and will continue to be based on the nutritional needs of your animal. We work with several nutritionists and microbiologists to stay abreast of advancements in nutrition and microbiology, and will offer new products to our customers that represent these advancements in science.

DIRECTIONS: 2 ounces per 1,000 lb horse per day (2 ounce scoop included).

Caution: Do not feed in amounts to exceed a supplemental selenium level of 0.3ppm in the final diet.

Warning: Do not feed to sheep due to possible copper toxicity. Not for human use.
