

Insulated Water Bucket

- Steel outer shell supports an internal 5 gallon easy clean, lightweight water holder
- Insulated floating top provides continuous protection on drinking surface and keeps water clean
- Heat loss curtailed by fully protective insulation
- Stands firmly on the ground or mounted with brackets which are welded to the steel outer shell
- Solid and indestructible. Will last for years
- Overall dimensions: 16" tall x 13" wide & 15" deep
Weight: 16 lbs

Generally, during a 0° outside temperature day, some minor freezing may occur after 6-12 hours, which provides adequate time for your horse to drink between watering schedules.
