MADE IN THE USA

TC # G7421201

**Total Equine Relief** was developed to ease the effects of aches and support the normal inflammatory response caused by training and competition. These conditions may cause heat, stiffness and discomfort that could hinder these activities. Although competition horses are more prone to these issues, all horses will benefit from the relief of aches and discomfort associated with every day activities. **Total Equine Relief** will help support the normal recovery process and ease discomfort without causing stomach upset. There are no harsh side effects that can lead to other issues associated with those conditions. Older horses will greatly benefit from the effects of easing stiffness and discomfort.

## DIRECTIONS FOR USE:

Administer 1 scoop (3.2 gram) per 500 lbs. or 2 Scoops (6.4 grams) per 1000 lbs. daily for the relief of aches and discomfort caused by training and competition. Results noticed within approximately 2 hours. Dosage may be increased to 1 scoops per 500 lbs. or 2 scoops per 1000 lb. horse every 12 hours, or AS DIRECTED BY YOUR VETERINARIAN.

## WARNINGS:

For animal use only. Keep out of reach of children and other animals. In case of accidental overdose, contact a health professional immediately. This product should not be given to animals intended for human consumption.

**STORAGE:** Store in a cool dry place.
