EQUI+Focus
Equine Performance Paste

EQUI+Focus is the Newest product in our line of equine performance pastes. **EQUI+Focus** is a veterinary developed "magnesium free" performance paste that helps support mental focus and concentration without losing valuable strength or power. The proprietary amino acid complex formula works with your horse naturally to alleviate stress, increase body comfort and soothe your horse's stomach to achieve a focused, winning performance.

All ingredients are "show safe" and are not currently listed on the USEF or AQHA prohibited substances list. **EQUI+Focus** does not impede athletic performance and does not cause excessive acid production like many products on the market today.

Active Ingredients: Tryptophan, Melatonin, Theanine, Thiamine, Arginine, Leucine, Phenylalanine, Bismuth.

Inactive Ingredients: Deionized Water, Maple Flavor, Praline Flavor, Glycerine, Ascorbic Acid, Xanthan Gum, Acesulfame K, Propyl Paraben, Methyl Paraben.

1+1 SYSTEM

Directions: To Maximize Performance, administer one tube the night before and one tube the morning of performance. Additional tubes may be administered at 24-hour intervals.
