# THE SMALLEST WIDE SPECTRUM MICROCURRENT DEVICE IN THE WORLD!

## THE CASE

**FOR MICROCURRENT  
TECHNOLOGY**

## A WEARABLE, COMPLETELY DRUG-FREE, NON INVASIVE, PAIN MANAGEMENT AND TISSUE REPAIR SYSTEM

- Over £1,000,000 in R&D
- 23,000 Hours of development
- Patented, award winning products
- Selling in 14 countries
- Used by leading Olympians, trainers, vets and physios

## What's in the box?

- Delivery Unit
  - Leg Strap
- Carbon Rubber Pads
- Conductivity Gel
  - Charger
- User Manual

## SMALL WONDER

**HUGE  
BENEFITS**

# QUOTES FROM VERY HAPPY CUSTOMERS

“ I can't believe a horse that was pretty much written off due to inflammation from acute bursitis made such an amazing progress in such a short time ”

Broken Bursitis

“ 6 weeks after using ArcEquine the vet couldn't believe it! His collapsed suspensory (ligament) apparatus had healed ”

Suspensory Ligament Injury

“ ArcEquine not only helped in the healing of the injuries. They gave me hope when everyone had written off my horse. The support and help from them has been amazing ”

Deep digital flexor tendon injury and navicular

“ My vet said that even if I'd had the superficial digital flexor tendon operated on at the outset, the injured area would not be in such an advanced state of repair ”

Superficial digital flexor tendon injury

“ I can honestly say that I don't think I'd be where I am today without it. In 12 weeks my horse's tendon hole is 100% gone, no box rest, no bute and no surgery. LOVE MY ARCEQUINE! ”

Deep digital flexor tendon injury

“ He was taking a calming liquid, but since the ArcEquine he's not needed it and has relaxed so much more. He's become even easier to handle and is on the road to recovery ”

Undiagnosed Injury

“ There's no doubt in my mind without the Arc, she would be retired to the broodmare paddock ”

Fractured Leg

“ I'm positive that the ARC's had a huge effect on her recovery and rehab. I am thrilled I bought it ”

Navicular

## HOW DOES IT WORK?

The body's natural biocurrents are required to produce ATP.

ATP is responsible for the flow of nutrients into and out of each cell.

This is why it is referred to as the 'energy source', it is the power behind this complex transportation process.

## WHEN INJURY OCCURS

Injury/disease decreases the rate of ATP production.

There is less energy to transport the nutrients and the flow slows dramatically.

Metabolic by-products begin to accumulate due to a lack of energy to transport them out of the cell, creating a dam-like effect. This causes inflammation which is perceived by the body as PAIN.

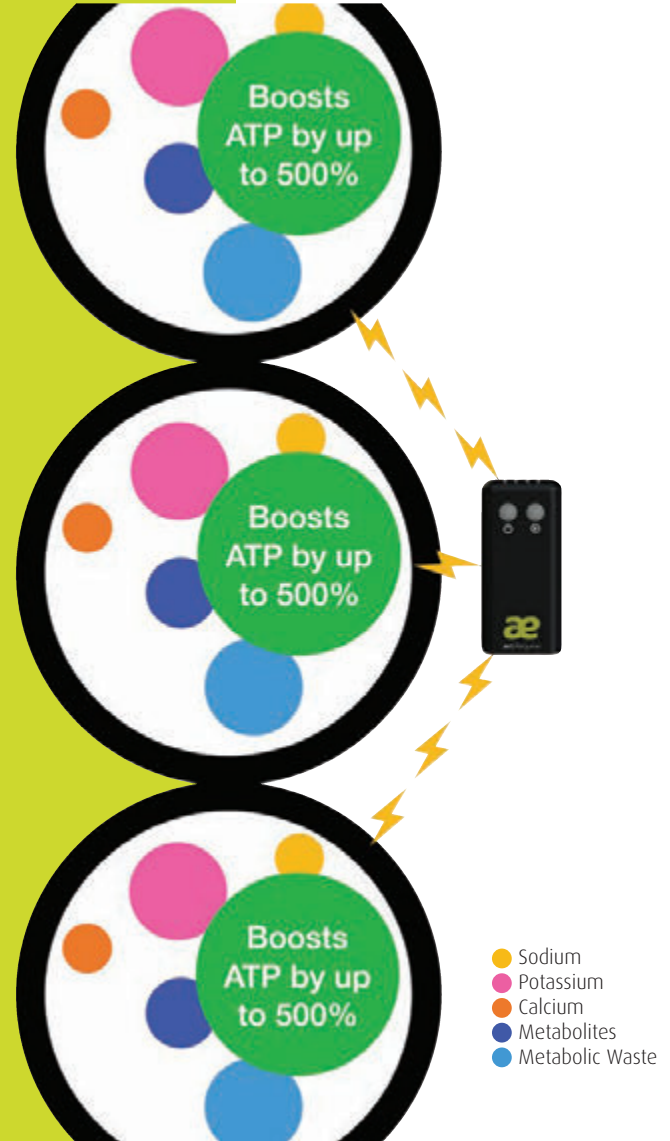

# HOW DOES ARCEQUINE HELP?

Microcurrent Technology replicates the body's own natural bio-currents.

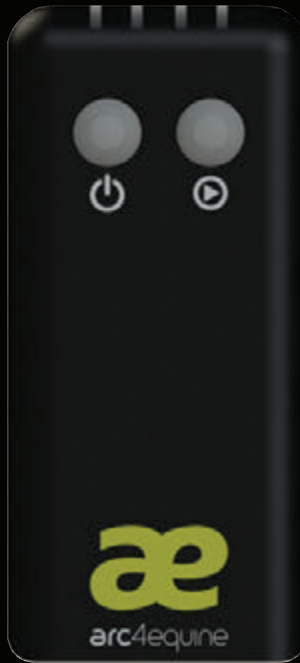

It turbo charges ATP production by up to 500%.

This kick-starts and accelerates the body's recovery, allowing pain reduction and healing to start earlier.

**For some injuries the ArcEquine enables the body to heal itself up to 50% faster, which means better repairs, less scarring and less long-term damage.**

# IDEAL FOR:

## **Pain and Inflammation**

Tissue  
Bone  
Tendons & Ligaments  
Cartilage  
Nerves  
Wounds

## **Tissue & Tendon Injuries**

Arthritis  
Sarcoids  
Navicular  
Laminitis  
Ligament and Tendon Injuries  
Kissing Spines  
Sacroiliac  
Mud Fever  
Tying up  
PSD & OCD

## **Torn Ligaments & Cartilage**

Intermittent Lameness  
Stiffness  
Splints  
Lactic acid dispersion  
Micro tear in muscles  
Coffin joint problems  
Chronic wounds  
Swelling & Bruising  
Windgalls  
Sweet Itch  
(skin conditions)

# GUARANTEED HARDWARE

Limited Warranty covers defects in materials & workmanship or electrical fault under normal use for 2 years from the date of retail purchase by the original end-user purchaser ('warranty period'). If a defect arises and a valid claim is received within the Limited Warranty period, Applied Microcurrent Technology will either repair the defective unit or exchange the product with a product that is new or which has been manufactured from new or serviceable used parts.

# GUARANTEED REPAIR

We understand that damage can happen at any time. This can be frustrating, especially when you have just bought a new unit, therefore we offer a no fuss Swap Out Service. This runs alongside the Limited Warranty. It means if your device is broken, and it is not covered under the Limited Warranty we offer to swap the unit for a brand new one at a vastly reduced price.

# GUARANTEED IT'S FAIR

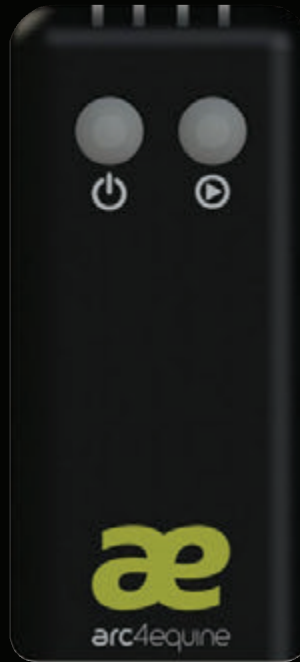

# APPROPRIATELY, IT'S NOT A PAIN TO OPERATE

# FEATURES

- ✓ 2 year warranty as standard
- ✓ 3 hour treatment
- ✓ CE mark
- ✓ Conductive gel (propylene glycol free)
- ✓ Wearable, drug free & non invasive
- ✓ Durable carbon rubber pads
- ✓ Ergonomic delivery mechanism
- ✓ Leg strap fastening
- ✓ Made in the UK
- ✓ No specialist training required
- ✓ Rechargeable high capacity battery
- ✓ Guaranteed repair service
- ✓ Fail-safe swap out service
- ✓ Drawstring bag
- ✓ Dust resistant
- ✓ Moisture resistant

# AND THE RESULTS ARE IN...

## SARCOIDS

**4 WEEKS**

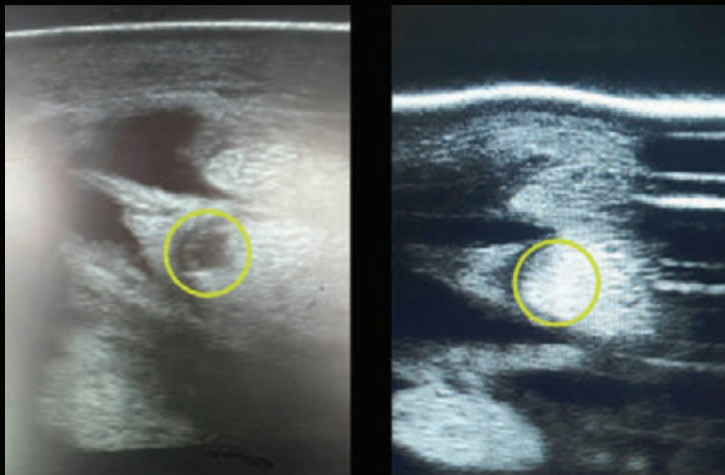

## PUNCTURE WOUND

"Joycie was thought unlikely to survive with a limited chance of working again. The RVC treated her and we used Arc Equine. She is now competing again with no white hair on the damaged area.

**16 WEEKS**

# DEEP DIGITAL FLEXOR TENDON

## 12 WEEKS

“Gromit was diagnosed with a deep tear the size of a 50p piece on the side of his tendon, so it doesn’t have borders. Not a candidate for PRP therapy and his chances of a full recovery were non-existent.

We were given a 50% chance of getting him back as a hacking horse. I used ArcEquine, had the 3-month scan and the hole was 100% gone! **No surgery, box rest or bute!**”
