Directions for Use: *Administer Orally. Store in a cool dry area.*

3 days prior to Event: 2oz (AM) / 2 days prior to Event: 1oz twice daily (AM & PM)

1 day prior to Event: 2oz (AM) - 2oz (PM)

Ingredients:

Beet Root Fiber (powder): The fiber in this root supports digestive regularity. It's also high in potassium which regulates electrolyte levels and also provides folic acid.

Purple Sweet Potato: The anthocyanins in this extract perpetuate strong anti-oxidant activity which supports the immune system and wards off cancers.

Bladderwrack: Rich in calcium, iodine and potassium, it has the ability to balance metabolism and support muscles. Aids in treating rheumatism.

Rose Hips: Rich in biotin content thus promoting healthy hoof growth. It's a valuable source of vitamin(s) C, E & K. Helps in combating infections.

Slippery Elm: Rich in vitamin(s) A, B, C & K, it is a natural digestive tonic. It regulates internal bacteria, soothes irritated digestive systems and can soothe and even heal ulcerated membranes. Aids in breathing.

Hawthorn Berries: Dilates blood vessels, helping to increase circulation throughout the body. Excellent for treating overall lameness, laminitis/founder and navicular conditions.

Ophiopogon Japonicus: Stimulates the lungs and stomach's mucous membranes as well as curbs anxiety and restlessness.

Garlic: Its blood cleansing action makes it ideal for horses prone to laminitis, chronic arthritis, sweet itch and overall skin conditions. Keeps worms and other parasites in check.

Gotu Kola: This herb improves circulation to the extremities, specifically the legs. Promotes healing of connective tissue and joints.

Yarrow: Acts to dilate and strengthen peripheral blood vessels and helps clear away small blood clots, thus increasing circulation which in turn aids in the reduction of "bleeding", expanding the airway.

Watermelon Frost: Effectively treats throat soreness and helps in opening up the airways.

White Willow Bark: A most effective herb in combating arthritis in the joints, specifically the fetlocks, knees, hocks and hips.

Chamomile: This herb relieves the nerves of undue stress, allowing the horse to breathe evenly.

Mullein: A very effective multi purpose herb, mullein offers many healing abilities. It loosens congestion and helps clear the lungs. It also cleanses and soothes the urinary tract of infection and irritation.

Marshmallow: Helpful in treating urinary tract inflammation. Lubricates and soothes the mucous membranes.

Astragalus: Used to treat colds and flu due to the high content of active compounds like polysaccharides, saponins and flavonoids. It's incredibly beneficial for animals suffering from stomach ulcers and inflamed kidneys.
