

**RAPLAST® WILL KEEP IT  
SAFE AND UNTOUCHED!**

**INFORMATION:** RAPLAST® is a unique product which uses the active ingredients of oleo resin capsicum, capsaicine and pelargonic acid vanilly amide to prevent horses from chewing on wraps, blankets, wood, etc.

By properly using RAPLAST®, your animal will leave anything completely alone! RAPLAST® is uniquely effective. There is only one way to describe how it works - **UNIQUELY** - and there is only one way to describe RAPLAST® - **EFFECTIVE**. Working by smell, RAPLAST® protects wraps, blankets, wood, and more from horses unaffected by lesser products.

**RAPLAST®**

### USE ONLY AS DIRECTED

**DIRECTIONS:** Use outside or in a well-ventilated area. Application of RAPLAST® should be done in an open area standing upwind as product can be very irritating to eyes, nose, mouth and groin area. Do not use spray setting - USE STREAM SETTING!

Carefully apply RAPLAST® on wraps, blankets, wood, trailer ties, etc. Usually one stream per area is enough. Wash hands thoroughly after use.

**CAUTION:** Skin sensitive animals may experience discomfort if skin contact occurs. Do not soak wraps, blankets or bandages with RAPLAST®. If irritation from skin contact should occur, rinse with cold water until pain subsides. If irritation persists, get medical attention. If eye contact occurs, flush with plenty of water for 2 minutes. Repeat. Call physician. If ingested, **DO NOT INDUCE VOMITING!** Get medical attention immediately.

**STAINING:** Product may cause stains which can be removed by following laundering directions on wraps or blankets.
