## Hip & Joint Extra Strength

Liver flavor chewables provide balanced levels of glucosamine, chondroitin, MSM, and hyaluronic acid to help maintain healthy canine joint function and connective tissue.

**Directions for Use:** One-half (1/2) chewable per 40 lbs body weight twice daily. Allow four to six weeks for best results. Continue as needed.

### Active Ingredients per Chewable:

Glucosamine Hydrochloride (from shellfish) – 500 mg  
Chondroitin Sulfate (porcine trachea) – 200 mg  
Methsulfonylemethane (MSM) – 50 mg  
Ascorbic Acid (Vitamin C) – 50 mg  
Zinc (Zinc Oxide) – 15 mg  
Hyaluronic Acid – 6 mg  
Manganese (Manganese Gluconate) – 5 mg  
Copper (Copper Gluconate) – 2 mg

### Inactive ingredients:

Brewers Dried Yeast, Cellulose, Liver Meal, Magnesium Stearate, Natural Flavor, Silicon Dioxide, Stearic Acid.

### Key Components:

Glucosamine HCL is the key building block for making cartilage. Recent reports in veterinary journals have validated the benefits of glucosamine in maintaining joint health and supporting mobility and activity in dogs of all ages and sizes.

Chondroitin sulfate protects existing cartilage and slows its break down.

Methsulfonylemethane (MSM) is a natural anti-inflammatory agent that provides sulfur essential in the formation of cartilage.

Hyaluronic acid helps maintain the viscosity of joint fluid.

Vitamin C (ascorbic acid) is a potent antioxidant that is also important for the formation of bone and cartilage.

Manganese, copper and zinc are essential in biochemical reactions that help form cartilage.

**Best Use:** For added joint support in athletic or overweight medium or large dogs of all ages.
