

Equine BlueLite Pellets

Working/pleasure horses/ponies: The EQUINE BLUELITE PELLETS product is formulated to provide supplemental energy and oral hydration support for all classes of horses. Top dress or mix into the daily ration at 4-8 ounces per head per day based on the level of heat stress or activity of the horse. For show horses it is recommended to use 4-8 ounces per head per day for 1 week prior to transport and 2 days after returning based on level of stress or activity of the horse. Suggested usage rates are based on a 1000 lb horse, adjust product usage according to body weight of horse.
