

CRIB-GUARD Equine Spray

**LONG -LASTING
GUARANTEED TO STOP CRIBBING & CHEWING**

Protect your horses from chewing, gnawing and cribbing. Avoid costly vet bills, dental injuries and dangerous digestive tract problems. Also available in an easy gel application - Crib-Guard Gel!

Safe to spray on painted, wooden, plastic or metal fences, stalls, gates, blankets or other surfaces that your horse desires to chew.

Can be used on exposed areas of wraps and bandages for added protection. Safe for reins, leads and halters.

Will NOT: Irritate skin.

Will NOT: Stain blankets or wraps.

Will NOT: Harm vegetation.

May cause slight discoloration. Testing small surface of intended area is recommended prior to use.

DIRECTIONS: Spray on intended areas you don't want your horse to chew. Hold bottle 12" away from target area of intended surface.

Two full sprays will cover 12 linear inches. Use ONLY in well ventilated areas. Remove horse from area to treat stall. Do not soak wraps & bandages with this product. Safe for use on leather. May be repeated consistently to deter chewing until fixation stops.

WARNINGS: Keep out of reach of children. For External Use Only. Avoid contact with eyes, nose, mouth and ears. Do not spray on open wounds. If contact occurs, flush with water for 15 minutes. Wash hand after each use or exposure (touching) of product. If redness or irritation persists, or if accidentally swallowed, do not induce vomiting and seek professional attention immediately.

CONTAINS: Purified Water, Pepper Extract, Bittering Agent

100% Guaranteed • Not for Human Use
