

For horses undergoing stress of showing, traveling, training or racing. **Nutrient Buffer** liquid provides natural sources of calcium and magnesium in a commonly recognized antacid form, within an easy to administer liquid emulsion.

Nutrient Buffer[®] H/G is a companion product recommended for horses experiencing hind gut ulcers. See NutrientBuffer.com/hg for more information.

Consistency may vary depending on storage temperature and other conditions, but it will not effect the performance of the active ingredients. May be dosed or used as a top dressing for maintenance.

Separation may occur; shake well to reinforce emulsion.

RECOMMENDATIONS

- Keep cool and shake well.

Nutrient Buffer[®]

Time Tested Patented Formula

U.S. Patents: 5,496,567 & 5,935,610 NutrientBuffer.com

The original drug-free liquid suspension containing calcium and magnesium - natural nutrients to optimize stomach function.

Shake Well Before Use

Keep Out of Reach of Children
For Veterinary Use Only
