

BANIXX

HORSE & PET CARE

For Wounds, Fungus, Rain Rot & Scratches,
Thrush, White-Line Disease
Quick, effective aid in the recovery of
Bacterial & Fungal Infections.

Active Ingredient:

2.5 % Hydronium Solution (H9O4)
Contains No Steroids or Antibiotics

For Wounds, Skin Infections and Fungus:

1. Thoroughly clean infected area with water only if necessary and allow to dry.
2. Apply BANIXX™ liberally.
3. Repeat twice daily, as needed.

NOTE: Unless necessary, do not clean affected area between applications.

For Thrush, White Line & Abscess:

1. Clean & dry foot prior to treatment.
2. Apply medicine boot with 3 gauze pads, or equivalent device, to foot.
3. Add 3-4 ounces BANIXX™ to boot to soak foot.
4. Repeat twice daily, 4-5 days. For best results, keep boot on foot during treatment and apply treatment immediately after your professional has trimmed foot.
