

FIRST AID

- If in eyes**
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
 - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
 - Call a poison control center or doctor for treatment advice.
- If inhaled**
- Move person to fresh air.
 - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
 - Call a poison control center or doctor for further treatment advice.
- If on skin or clothing**
- Take off contaminated clothing.
 - Rinse skin immediately with plenty of water for 15-20 minutes.
 - Call a poison control center or doctor for treatment advice.

EMERGENCY NUMBER

FOR 24-HOUR EMERGENCY MEDICAL ASSISTANCE, CALL THE NATIONAL POISON CONTROL CENTER, 1-800-222-1222.

Have the product container or label with you when calling a poison control center or doctor.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Causes moderate eye irritation. Breathing of mist may cause respiratory irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

When applying to animals stand up wind from the subject being treated and avoid contact with delicate areas such as eyes and ears.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, or gutters or surface waters. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

Fly Repellent

*For use on livestock:
horses, beef and dairy cattle
to repel stable flies, horn flies,
ticks and cattle lice*

Active Ingredients:

| | |
|-------------------------|---------------|
| Octanoic Acid | 5.0% |
| Nonanoic Acid | 5.0% |
| Decanoic Acid | 5.0% |
| Other ingredients | 85.0% |
| TOTAL | 100.0% |

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See back panel for additional precautionary statements

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Do not dilute Ecovet Fly Repellent prior to use or combine or co-apply with any other skin treatments, including soaps and detergents. Apply to individual animals while standing up wind from the subject being treated. Apply to hair coat using any commercially available small sprayer suitable for oil application or using a soft cloth. Apply with care around delicate areas (eyes and ears). If animals have been washed, allow treatment areas to dry before application.

BEEF AND DAIRY CATTLE: For repelling flies and ticks, apply as needed to front and rear legs and lower body or other areas as necessary. For repelling lice, spray affected areas and rub into coat.

HORSES: For repelling flies and ticks, apply to front and rear legs and lower body. Apply with care around eyes and ears. Do not apply when horses are sweating profusely.

STORAGE AND HANDLING

DO NOT contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store container in a cool place until used. Store at temperatures above 32° F.

Pesticide Disposal: Wastes resulting from use of this product must be disposed of on-site or at an approved waste disposal facility.

Container Disposal:

If empty: Non-refillable—Do not reuse or refill this container. Offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
