

Creates Focus and Stabilizes Your Horse's Attitude Every Day!

Contains only vitamins, minerals and amino acids naturally present in the horse.

Loading Dose: For maximum effect, administer 2 scoops AM and 2 scoops PM for 3 consecutive days. Then reduce for maintenance.

Maintenance Dose: Evaluate response after loading dose. Reduce dosage to 1-2 scoops AM and 1-2 scoops PM to find optimum maintenance level.

Dosis de carga: Para un efecto máximo, administre 2 medidas por la mañana y 2 medidas por la tarde durante 3 días consecutivos. Luego reduzca para mantenimiento.

Dosis de mantenimiento: Evaluar la respuesta después de la dosis de carga. Reduzca la dosis a 1-2 cucharadas por la mañana y 1-2 cucharadas por la noche para encontrar el nivel de mantenimiento óptimo.

Active Ingredients per 65 grams (1 scoop):

Proprietary Blend of Taurine, Magnesium, Inositol, Thiamine, Glycine, Riboflavin, Vitamin B6, Deglycyrrized Licorice Root Extract (18,110 mg).

Inactive Ingredients: Alfalfa Meal, Calcium Propionate, Fenugreek Seed Powder, Heat Stabilized Rice Bran, Lignin Sulfonate, Soybean Oil.

Warnings: For animal use only. Keep out of reach of children and animals. In case of accidental overdose, contact your health professional immediately. This product should not be given to animals intended for human consumption.

Disclaimer: This product is not warranted for any specific use including permissibility. Perfect Prep EQ™ Feed-Through Comparison Chart

	DAILY CALMING FORMULAS	HORMONAL BEHAVIOR SUPPORT	PRE-EVENT	
	TRAINING DAY	HARMONY	SANE & SOUND	GOLD
INDICATION	TRAINING AT HOME	TRAINING AT HOME & SHOW PREP	SCHOOLING & SHOW PREP	SCHOOLING & SHOW PREP
DESCRIPTION	Creates a calm, focused and ready-to-ride horse every day.	Addresses neural pathway overstimulation, smooth muscle discomfort and hormonal imbalances in mares, geldings and stallions.	Combats the 3 primary contributors to anxiety: overstimulation, pain and gastric upset.	The same benefits as Sane & Sound, plus Metaphan™ to further enhance a sense of calm.
FORM	POWDER or PELLETS	LIQUID	PELLET	PELLET
UPTAKE TIME	Effects begin within 2 hours and builds with consecutive feedings.	Effects begin within 2 feedings and builds with consecutive feedings.	4 - 6 Feedings	4 - 6 Feedings
SWEET SPOT	4 Feedings	6 Feedings	4 Feedings	4 Feedings
DOSAGE TIMING	For late day rides, a lunch feeding around 2 hours prior to riding is recommended.	Each dose begins taking effect at 3 hours and peaks at 6 hours.	For late day rides, a feeding given 4 hours prior to riding is recommended.	
HINTS	For a ready-to-ride horse, use as a daily calmer.	For a challenging horse, combine with Training Day+ Pellets.	Creates a great baseline for horse show maintenance of anxious horses.
