

# VETERICYN® SUPER 7+™ NAVEL DIP

*Innovacyn*

Navel Dip, Umbilical Cord Dry-Out & Protection For Newborn Animals

This is a safe & effective alternative to strong iodine

**Indications:** Super 7+ Navel Dip is formulated for umbilical cord dry-out & protection. Safe for animal use only.

**Directions for Use:** **Shake well before each use.** Apply gloves to avoid staining hands and always use splash proof goggles. Dip the navel within 30 minutes of birth while the navel is still wet. Using a teat dip cup, pour out enough Super 7+ Navel Dip to fill dip cup. Totally submerge the navel cord in Super 7+ Navel Dip solution. Gently push the teat cup against the abdomen to coat & stain entire navel area. If the navel cord is covered with MUD (manure, urine, dirt), use a two-dip process. First, pour Super 7+ Navel Dip solution into a separate container and use this to wash the cord. Then, use the teat cup to dip the clean cord. Be sure to discard Super 7+ Navel Dip solution after each use. The navel may be dipped again 12 hours later to speed drying if necessary-this is recommended for animals born in dirty environments.

**Use Precautions:** For external use only, not for injection. Discontinue if irritation develops & contact your veterinarian. Consult with a veterinarian for systemic conditions. Avoid eye contact. If eye contact occurs, rinse thoroughly with water. If irritation persists, seek medical attention. Keep unprotected personnel away from application site. **KEEP OUT OF REACH OF CHILDREN.**

**Storage:** Store at room temperature. Contains Liquid - Avoid Freezing. After use, tighten cap.

**Ingredients: Active:** Sodium Hydroxide (0.80%), **Inactive:** Electrolyzed Alkaline Water, Sodium Bicarbonate, Sodium Carbonate, Sodium Chloride, Blended Disodium Salts

**Manufactured & Bottled by Innovacyn, Inc., 3546 N. Riverside Ave, Rialto, CA 92377**
