

CAUTION

KEEP OUT OF REACH OF CHILDREN.
NOT FOR AQUATIC USE. NOT FOR
USE ON FOOD OR FOOD PRODUCTS.

For External Use Only. Adult supervision
required. Do not apply to the hands of
children. Avoid contact with eyes. Spot
test on a small patch of skin to check for
any sensitivities. Discontinue use if
irritation or rash occurs. Do not apply to
open cuts, wounds or irritated skin.

FIRST AID

For Eyes: If contact with eyes occurs,
rinse eyes thoroughly with water for 15
minutes. Remove contacts if present after
5 minutes.

For Skin: If a skin reaction occurs, wash
the area thoroughly with soap and water.

If Swallowed: Call poison control center
1-800-222-1222 for treatment advice.
Have label available when calling a doctor
or poison control center or being seen for
treatment. Have individual sip a glass of
water if they are able to swallow. Do not
induce vomiting unless suggested by the
poison control center. Don't give anything
by mouth to an unconscious person.

DIRECTIONS

Bye Bye Insects in this bottle is a concentrate. You may be able to dilute it up to half with water. Based on your level of nuisance flies, choose a concentration that works best for you. We expect most customers will find a 50% dilution to be sufficient. It may be used to full strength if needed. Retain this bottle to refill from 3 quart Bye Bye Insects pouch.

For Horses and Ponies: *Shake well before each use.* Brush horse thoroughly to remove excess dirt and dust. Spray a light mist on the coat, concentrating on legs and flanks. Do not spray on the face or in mucous membranes. For the face, spray onto a soft cloth and wipe around the eyes and ears or use Bye Bye Insects Towelettes. *May cause slight yellowing on white or gray hair.*

For Human Use: *Shake well before each use.* Hold bottle 6-8 inches from skin, spray on exposed skin and wipe with hands to distribute. To apply to face, spray in hands and wipe on face. Do not spray on clothing or directly on face. Do not apply to the hands or face of children. Avoid contact with eyes. For mosquitoes, use full strength and reapply every 3-4 hours.

Storage and Disposal: Store in a cool place, away from flame. Reusable bottle only for Bye Bye Insects. Dispose in the trash or recycle. If partially full, call your solid waste agency for disposal instructions. Never pour unused product down any indoor or outdoor drain.
