

Birdsall's
**FARRIER
BARRIER**

RECOMMENDED USE:

Brush on lower half of hoof wall. Cover complete sole and frog area. Be sure to work "Farrier Barrier" into crevices and problem areas. Do not use on the coronary band.

Use as directed by your farrier or veterinarian.

May be used under pads with oakum or other packings with good results.

ABOUT THE PRODUCT:

- â This formula is designed to enhance the integrity of the hoof capsule.
- â It will not dry out or harden the hoof, but will make it tougher.
- â Improves cracked feet.
- â Protects the horse's feet against the harmful effect of moisture from morning dew and bathing.
- â Fights White Line Disease, Thrush, Canker and bacterial infections of the hoof. Helps eliminate soreness of tender feet.

CONTENTS:
