Perfect Prep EQ™

Supreme

With Vitamin BeHave!
and natural buffering ingredients

PERFECTPRODUCTS

Suggested Use: For maximum effect administer one tube (80cc) 90 minutes prior to activity. Adjust for desired results. Effects begin 1 hour after administration and last up to 6 hours. Administer carefully to assure swallowing. Flows best at room temperature. Administer as needed. Administering 2 syringes within a 12 hour period generally achieves desired effect. Compatible with any Perfect Prep EQ™ formula.

Uso sugerido: Para obtener el máximo efecto, administre un tubo (80 cc) 90 minutos antes de la actividad. Ajuste para obtener los resultados deseados. Los efectos comienzan 1 hora después de la administración y duran hasta 6 horas. Administrar con cuidado para asegurar la deglución. Fluye mejor a temperatura ambiente. Administrar según sea necesario. La administración de 2 jeringas en un período de 12 horas generalmente logra el efecto deseado. Compatible con cualquier fórmula Perfect Prep EQ™.

Active Ingredients per 80cc: A proprietary blend of L-Tryptophan, Thiamin, Magnesium Amino Acid Chelate, Inositol, Vitamin B6, Riboflavin (22,850mg).

Inactive Ingredients: Ascorbyl Palmitate, Citric Acid, Coconut Oil, Methylparaben, Silica Gel, Soy Lecithin, Soybean Oil, Natural & Artificial Flavors, Vitamin E (dl-alpha tocopheryl acetate).

Warnings: Consult your veterinarian prior to exceeding recommended dosage. For animal use only. Keep out of reach of children. In case of accidental overdose, contact a health professional immediately. This product should not be given to animals intended for human consumption. Not for human use. **Disclaimer:** This product is not warranted for any specific use including permissibility. Perfect Products or its sellers shall not be liable for consequential, special or indirect damages resulting from use of this product. **Notice:** Confirm permissibility with your governing organization prior to use. Note: Safe use in pregnant animals or animals intended for breeding has not been proven. If animal's condition worsens or does not improve, stop product administration and consult your veterinarian.
