

# WHY BAMBOO?

## ORGANIC BAMBOO

The fastest growing plant on the planet, bamboo is a sustainable, renewable resource you can feel good about having next to your horse.

## ECO-FRIENDLY

Thriving on very little water and without the use of pesticides or fertilizers, bamboo is a 100% natural and biodegradable fiber with a small environmental footprint.

## MOISTURE-WICKING

With the ability to wick away three times its weight in water, bamboo efficiently moves sweat and moisture away, keeping your horse dry and comfortable.

## ANTIBACTERIAL

Naturally resistant to bacteria, mold and mildew, bamboo provides odor-free performance.

## CLIMATE CONTROL

Micro-gaps in fiber encourage airflow and breathability for increased comfort in all temperatures.

## BUTTERY SOFT

Soft as silk, bamboo is a strong, hypoallergenic fiber perfect for horses with sensitive skin.

## UV PROTECTION

Resistant to UV rays for protection from the fading and degrading effects of sunlight.
