

Boot Size Guide

SUGGESTIONS & MEASUREMENTS

FOR FEATHER-WEIGHT BOOTS

Determining the exact size and style of boot your sport horse requires is critical for maximizing comfort, performance & protection. Please read the following suggestions:

THERE IS A SPECIFIC STYLE OF BOOT FOR EVERY NEED.

The various materials used in the making of each horse boot determines the conditions in which they are recommended to be used.

Feather-Weight™ Leather Boots: Extra fine, lightweight racing boots are recommended for average racing conditions. Flexibility permits free action of the muscles and joints. Fits closely and comfortably to reduce chafing. Suitable for hard hitting horses that require good protection.

Feather-Weight™ Compressed Felt Boots: Lightweight racing boots made of the finest quality wool felt. Provides medium protection and noise reduction.

- | | |
|-----------|---|
| SS | Extra Small: for weanlings & yearlings. |
| S | Small: for colts & small horses. |
| M | Medium: for medium size horses. |
| L | Large: for large size horses. |
| LL | Extra Large: for extremely large horses. |

QUARTER BOOTS

To measure a horse's quarter for a pair of boots of this kind, run a string or tape line around the hoof, just at the top of the shoe, at the heel, meeting in front of the hoof just below the hair.

Extra Small, "SS" Size: Buckle at 10½ inches; can be buckled up to 9½ inches or let out to 11½ inches.

Small, "S" Size: Buckle at 12½ inches; can be buckled up to 11½ inches or let out to 13½ inches.

Medium, "M" Size: Buckle at 14½ inches; can be buckled up to 13½ inches or let out to 15½ inches.

Large, "L" Size: Buckle at 16½ inches; can be buckled up to 15½ inches or let out to 17½ inches.

Extra Large, "LL" Size: Buckle at 18½ inches; can be buckled up to 17½ inches or let out to 19½ inches.

KNEE AND KNEE & ARM BOOTS

Measurements for these boots should be taken around the horse's arm, just above the knee where the boots buckle.

Extra Small, "SS" Size: Buckle at 9¼ inches; can be buckled up to 8¾ inches or let out to 9¾ inches.

Small, "S" Size: Buckle at 10 inches; can be buckled up to 9½ inches or let out to 10½ inches.

Medium, "M" Size: Buckle at 10¾ inches; can be buckled up to 10¼ inches or let out to 11¼ inches.

Large, "L" Size: Buckle at 11½ inches; can be buckled up to 11 inches or let out to 12 inches.

Extra Large, "LL" Size: Buckle at 12¼ inches; can be buckled up to 11¾ inches or let out to 12¾ inches.

FRONT LEG - SHIN & ANKLE BOOTS

Measurements for these boots should be taken at the point just above the fullness of the ankle.

Extra Small, "SS" Size: Buckle in the middle hole at 5¾ inches; can be buckled up to 5 inches or let out to 6½ inches.

Small, "S" Size: Buckle in the middle hole at 6¾ inches; can be buckled up to 6 inches or let out to 7½ inches.

Medium, "M" Size: Buckle in the middle hole at 7¾ inches; can be buckled up to 7 inches or let out to 8½ inches.

Large, "L" Size: Buckle in the middle hole at 8¾ inches; can be buckled up to 8 inches or let out to 9½ inches.

Extra Large, "LL" Size: Buckle in the middle hole at 10 inches; can be buckled up to 9 inches or let out to 10½ inches.

HIND LEG - SHIN & ANKLE BOOTS

Measurements for these boots should be taken at the point just above the fullness of the ankle.

Extra Small, "SS" Size: Buckle in the middle hole at 7 inches; can be buckled up to 6¼ inches or let out to 7¾ inches.

Small, "S" Size: Buckle in the middle hole at 8 inches; can be buckled up to 7¼ inches or let out to 8¾ inches.

Medium, "M" Size: Buckle in the middle hole at 9 inches; can be buckled up to 8¼ inches or let out to 9¾ inches.

Large, "L" Size: Buckle in the middle hole at 10 inches; can be buckled up to 9¼ inches or let out to 10¾ inches.

Extra Large, "LL" Size: Buckle in the middle hole at 11 inches; can be buckled up to 10¼ inches or let out to 11¾ inches.
