For Pre-Performance Use

Suggested Use: Feed 1 - 4 scoops twice daily (refer to chart for recommended dose). For late day performances a mid-day feeding is suggested. Effects begin after 1 feeding and peak after 4 to 8 feedings. Dosage may be adjusted according to horse's response (see chart below). Continue as needed during performance days. 1 scoop = 40 grams.

Uso sugerido: Para el caballo promedio, alimentar 1-4 cucharadas dos veces al día, con una alimentación y pico después de 4 a 8 comidas. La dosis se puede ajustar de acuerdo a la respuesta del caballo (ver tabla a continuación.) Continuar según sea necesario durante los días de rendimiento. 1 cucharada = 40 gramos.

Loading Dose Average Horse	Loading Dose Difficult Horse
2 scoops 2x per day	3-4 scoops 2x per day
Maintenance Dose Average Horse	Maintenance Dose Difficult Horse
1-2 scoops 2x per day	2-3 scoops 2x per day

Caution: Effects may be profound. Evaluate each individual horse's response to this product prior to performance.
