

INGREDIENTS:

Equiderma Neem Conditioner contains 100% active ingredients. No inert ingredients at all in this powerhouse protector. We start the water base with a strong tea of steeped neem leaves and to this base we add Neem Seed Oil, Castor Oil, Jojoba, Vitamin E, Vitamin B5

INSTRUCTIONS:

Use this uniquely powerful ayurvedic-based formula as part of a regular grooming regimen to keep your horse's coat in optimum condition or as part of our Equiderma system to attack skin problems.

1. Use 1 cup of Equiderma Neem Conditioner to a bucket of warm water. Blend well.
2. Dip the tail and the dock and pour the remainder over your horse starting at the poll and slowly working your way back to the tail.
3. Leave on and begin to massage into the coat.
4. Wait a few minutes, up to one hour before rinsing
5. Rinse well until water runs clear.
6. Grab the tail below the tailbone and spin it around to accelerate drying or use a towel to blot dry.
7. Wait for the tail to dry fully before combing it out. Don't be concerned about losing some tail and mane hairs. Just like your own hair there will always be some natural sloughing.
