dac[®]
"IT MAKES A WORLD OF DIFFERENCE"

FEEDING DIRECTIONS: FOR HORSES ONLY

dac® Total Performance can be fed with either fortified or unfortified grains. Fortified grains contain added vitamins and minerals and require a lower feeding rate of dac® Total Performance. Feed dac® Total Performance at the following rates:

Horses In Training: 2 scoops (2 ounces) per horse per day if fed with unfortified grains.

CONSULT AN EQUINE NUTRITIONIST OR dac® IF FEEDING WITH FORTIFIED GRAIN.

Feeding rate based on 1000 lb horse. Feeding adjustments must be made for larger or smaller horses.

Seller is not responsible for damage, loss or injury of any kind including, without limiting, lost profits. This product must be used as instructed. Express and implied warranties are disclaimed and sellers' responsibility shall not exceed the purchase price of product.

Guaranteed Analysis per Scoop (1 oz.):
