

• UP TO A 128-DAY SUPPLY •

REMISSION is a scientifically engineered blend of supportive natural ingredients with probiotics and a functional carbohydrate (second generation prebiotic) for horses foundered or prone to the risk of founder. REMISSION contains chromium and magnesium and also provides seventy antioxidants, Omega 3 and Omega 6 Fatty Acids and all the essential Amino Acids.

DIRECTIONS FOR USE: Horses; 1 (one) ounce per day per 1000lbs body weight until symptoms subside. Then 1/2 ounce per day per 1000lbs body weight. The large end of the enclosed scoop measures approximately 1/2 ounce.

Best results occur when REMISSION is used in conjunction with a feeding program based on a diet high in fiber and low in simple carbohydrates. Should it be necessary to maintain body weight, dietary fat can be added to the feed. AniMed™ Flaxseed Oil or AniMed™ Rice Bran Oil are excellent sources of dietary fat.

Lot #: SAMPLE

CONTAINS  
**Lacto-Mos™**

**ANIMED™**  
HORSE CARE

## PROFESSIONAL STRENGTH **REMISSION**

**Recommended for Horses Prone  
to the Risk of Founder.**

NET CONTENTS:  
4 pounds (1814 Gm)

*It's all about the animals.™*
