

Balance EQ™

A formula to support insulin and glucose levels within normal ranges, muscle tone and the appearance and health of skin.

Balance EQ™ is a proprietary mix of Amino Acids, Antioxidants, Chasteberry, Fenugreek, Jiagoluan and Kelp.

Formulated to promote proper glucose metabolism, especially in aging or insulin sensitive horses. By helping to maintain blood glucose levels within normal ranges, *Balance EQ™* was designed to assist the body with the normal uptake and clearance of glucose by the cells.

Comprised of 7 amino acids that work to promote muscle integrity, definition, and proper body composition, *Balance EQ™* is the ideal product to add to your horse's diet. Among these essential amino acids,

Acetyl-L-Carnitine is thought to aid in normal nerve conduction and function. L-Arginine supports circulation and aids in promoting muscle recovery, especially in exercising muscles. Increased circulation helps to reduce inflammation and support a normal inflammatory response. Two other important amino acids found in *Balance EQ™*, L-Leucine and L-Lysine help support the structural integrity of connective tissues and aid in overall connective tissue health. Being rich in amino acids also helps maintain normal moisture content of the skin which in turn supports overall skin health.

By providing antioxidant support from ingredients like, Alpha Lipoic Acid, Dried Kelp, Fenugreek Seed Powder and Rhodiola Rosea, *Balance EQ™*, may help remove damaging free radicals that can cause oxidative damage to cells. Helping reduce oxidative damage can in turn promote cellular health and normal cell function.

Combined, *Balance EQ™* supports and promotes long-term health by aiding in keeping your horse in peak condition by providing optimal ingredients that enhance their physical and mental well-being.

Active Ingredients: L-Lysine, L-Tyrosine, Acetyl-L-Carnitine, L-Threonine, Chasteberry Extract, Fenugreek Seed Powder, Dried Kelp, L-Arginine, DL-Methionine, Rhodiola Rosea Powder, Alpha Lipoic Acid, Cinnamon (bark), Jiagoluan (*Gynostemma pentaphyllum*), Magnesium Proteinate, Chromium

Inactive Ingredients: Dried Brewer's Yeast, Dextrose, Sodium Saccharin, Silicon Dioxide

Directions for Use: Administer 1 scoop.

Note the use of Chasteberry may offset the effect of Pergolide.

Balance EQ™ is available in one size:
1200g Jar (60day supply) \$93.00
